

Commercial CoolSaverSM A/C Tune-up Program

The Commercial CoolSaver program is designed to overcome market barriers that prevent commercial customers from receiving high-performance A/C and heat pump tune-ups. By identifying and correcting system inefficiencies, you save energy and money. CoolSaver provides incentives, training on best practices and discounts on high-quality tools for contractors to conduct high-performance system tune-ups.

WHAT ARE THE BENEFITS?

- Instant discount
- Use of precision digital instruments to increase system efficiency
- Reduced cooling costs
- Extends life of equipment
- Better humidity control

WHO IS ELIGIBLE?

All Entergy New Orleans small commercial customers (<100 kW average peak demand) with a central A/C or heat pump that is at least one year old and under 25 tons. (Systems that have been incentivized through the CoolSaver program in the last five years are not eligible to receive these incentives.)

HOW TO PARTICIPATE:

1. Contact the Energy Smart Center at **866-721-0249** or **info@energysmartnola.com**. Or visit **EnergySmartNOLA.com** for more details and to find a list of participating CoolSaver trade allies in your area.
2. Your trade ally will conduct an evaluation of your system to determine whether you would benefit from a high-performance tune-up, which could include services listed in the table below.
3. Your trade ally carries out your recommended tune-up measures.
4. Your trade ally will apply your instant rebate to your final invoice.

	Measure Type	Potential Services	Incentive Discount
COMMERCIAL COOLSAVER INCENTIVE RATES	High-performance A/C tune-up	<ul style="list-style-type: none"> • Cleaning condenser coil • Cleaning evaporator coil • Cleaning blower • Adjusting airflow & refrigerant to a manufacturer specification 	1.5-2.5 tons: \$125 3-5 tons: \$150 6-10 tons: \$200 11-15 tons: \$250 16-25 tons: \$400
